Skills

Ruby on Rails	RSpec	TDD
JavaScript	Jasmine	Kanban/Scrum
HTML/CSS	Git	Pair programming
MongoDB		

Experience

Software Engineer   Sept 2013 – Present
Perceptive Software, San Francisco Office
- Implemented features across the stack
- Stably integrated new functionality into a 7-year-old application
- Helped rebuild that app from the ground up as a set of modular Rails APIs
- Maintained strict standards of code readability for a rapidly expanding team
- Led a series of code review meetings

Web Developer   intermittent, Aug 2013 – Nov 2013
Dui Hua Foundation (mediated by Kenneth Ng)
- Built web interface for a complex, preexisting database
- Coordinated with remote team members

Education

App Academy - developer boot camp   Spring 2013
- Intensive 2-month program
- In-depth study of RoR and JS
- Full-time pairing supplemented by lectures and readings

The Pennsylvania State University   May 2012
- Honors in Anthropology, Minor in Neuroscience
- Paterno Liberal Arts Undergraduate Fellow

Nanzan University - Nagoya, Japan   Dec 2010
- IES Abroad Nagoya Intensive Japanese Program
